

Enjoy the lap of luxury

I wanted **more** from my laptop bag than black polyester and chunky plastic zips. With **style** featuring a long way down the workwear luggage industry's list of priorities, I started my own company!

Rosalind James was launched in the summer of 2009 and is **committed** to providing **chic** and **sophisticated** accessories, which wouldn't look out of place on the **catwalk**, at **affordable** prices.

With women working so hard, I've designed my first range to work just as hard for us. Our days of having to sacrifice **style in the workplace** are finally at an end.

The **Charlotte** provides the **ultimate solution** for anyone wanting to combine their laptop bag with their handbag.

Transport your computer **safely** and **securely** alongside documents and personal items. There's even a pocket for the latest edition of Heat!

The **Charlotte** is made in England from 100 per cent soft **Italian leather** and comes in four **beautiful colours**.

If you'd like to **stand out from the crowd** with a Rosalind James laptop bag then visit my website, at the address below, for details of how to order.
